**GREEK CABINET TO RESIGN—
 VICTORY ON SOMME**

London.—Greek cabinet has decided to resign and king will issue proclamation immediately afterward. This report, though unconfirmed, was accepted as further indication that Greece may be preparing for an early declaration of war.

London.—Most successful blow struck by Anglo-French troops since battle of Marne brought capture of Peronne and Bapaume appreciably nearer.

Possible, English military critics claim, that both towns, the immediate objective of great allied offensive, will fall within fortnight.

In two days of great battle on the Somme front British alone have captured between 3,000 and 4,000 prisoners.

Paris.—Rolled back by tremendous allies' blow yesterday, Germans made no attempt to recapture positions taken by French north of Somme.

London. — Wholesale defections from Greek army were reported in Athens dispatches today, hinting that declaration of war may be expected at any time.
